

Dear friends and colleagues

We hope you are fine. Anne-Grethe and I just want to send our greetings to all of you. It has been fantastic to work and collaborate with you throughout the last 5 years. It has been a hard but pleasurable time, a time we will remember with joy in future

A particular thank to the parents, this project could not be accomplished without you, such a devoted group of people you are, we are so impressed. We think the project went well. We were a bit worried about who is going to buy the book? No such doubts any more, we have received almost 1.300 orders from many countries like Australia, Dubai, Italy, Belgium and so on since the meeting in Denmark. Is that not fantastic?

It is with great feelings with satisfaction we are moving towards Christmas now. We think we all need a restful and peaceful Christmas leave after some hectic years. We hope we can keep in touch in future.

*We wish you all **A Merry Christmas and A Happy New Year!***

Bengt og Anne-Grethe
